SUMMARY

Content strategist with 2+ years building content systems for India's top tech creators and edtech brands. Managed a 600K+ audience, scripted 100+ videos, and delivered 3x watch-time growth. Now runs AI video pipelines in production, shipping 10+ finished videos a week. Engineering background with AWS and Azure certifications. Based in Chennai, open to Bangalore and Remote.

EXPERIENCE

AI Content Producer & Operations

Current

Scaler + MentiBY Technologies · Freelance

- Runs an end-to-end AI video pipeline covering research, scripting, audio and video generation, editing and publishing, shipping 10+ finished videos a week.
- Cut video production time by roughly 70% versus traditional shooting workflows.
- Manages content operations at MentiBY Technologies, an edtech startup.

Systems Engineer

Jul 2024 - Present

Sify Technologies · Full-time

- Built a 5-app Digital Office suite (Ticketing, Tasks, Approvals, FAQ, Compliance) with Power Apps, Power Automate and SharePoint.
- Created a Python and Selenium automation bot for ServiceNow, using LLMs to cut manual work.

Content & Community Intern

May - Jun 2024

Scaler · Internship

- Built an organic growth and UGC content strategy across Instagram, LinkedIn, YouTube and Quora.
- Authored blog posts and ORM scripts, and trained students to create their own content.

Technical Content Writer

Jun 2023 - Mar 2024

Code With Swaroop (Swaroop Talks) · Full-time

- Scripted and strategized 100+ YouTube videos for a creator channel with 450K+ subscribers.
- Designed and launched a DSA with Java course for 1,000+ students; grew the learning community to 5,000+.
- Managed 3 social platforms, driving organic growth across handles with 900K+ combined followers.
